## Rotary TAP

Post Office Box 2084  
Boone, NC 28607

Rotarians around the world are asked to use their connections and influence to improve the lives of others. You can use your talent, connections, and influence too to help others that are in need.

**Rotary TAP** (Tanzanian Aqua Project) is dedicated to improving the lives of Tanzanians, by providing safe water collection systems in needed areas of Tanzania. Many of these communities currently collect their water from mud holes where animals drink, leaving their only water source contaminated with feces and bacteria, causing disease.

Children often must search for and carry water for miles, preventing them from attending school and obtaining the education they need to raise themselves out of the poverty and disease they are living in. TAP provides safe water distribution points at schools and churches in these needy Tanzanian communities thus making it more convenient for the children to continue their education.

If you have an idea or wish to know how you may use your talent to bring clean water to those in need please feel free to contact us by email at [rotarytap@muncywinds.com](mailto:rotarytap@muncywinds.com) . To sponsor a family please send your checks to:

Rotary TAP
